About WOORIMIL

Introduction of Woorimil : Prioritize People and the Planet

In the fall of 1989 when Korean agriculture was declining, 180,000 people joined forces to revive production and consumption of Korean wheat and to safeguard agricultural food sovereignty.

To this, “the Headquarters of Revive Korean Wheat Movement” was founded with the mission of producing quality wheat by concluding contract cultivation with farmers, focusing on tireless R&D and offering fresh produce to customers, then sharing profits with farmers to take a lead in cultivating an eco-friendly food industry. Even now, over thirty years since establishment, the mission has set a direction in which Woorimil moves forward.

The 4 core values of Woorimil

1. Local /Fresh Ingredients

Made of local, fresh ingredients with its unique flavors that are not commonly found in other countries

2. Clean Label

No secret ingredients and no artificial flavors, colors or preservatives

3. Sanitation of manufacturing facilities

Food safety certification HACCP in all production facilities

4. Sustainable eco-system

All non-GMO, most are non-pesticide.

By cultivation contract directly from local wheat farmers, it enables high-quality production and provides stable source income for farmers

Woorimil Eco-system

Wheat Purchase Contract

We support market development and allow farmers across the country to focus on producing high-quality wheat. By utilizing contract production, we provide stable income to farmers, contribute to economic development in the region, and offer healthy food options to our customers.

Product Development and Distribution

We purchase agricultural products and process them into healthy, delicious food at HACCP-certified facilities that meet high hygiene standards. We prioritize eco-friendliness and avoid using harmful additives and preservatives, even with imported GMO agricultural products.

Healthy and Delicious Food to Customers

We believe that snacking should not require sacrificing health for taste. Our snacks use premium, better-for-you ingredients that are both kind to your body and deliver quality and flavor.

Facilities Infra

Sae-Mal Factory

Completed in 2016, the Sae-Mal factory is equipped with the latest facilities and infrastructure necessary for confectionery production.

We are producing various products including tofu snacks and PB products of our partners.

Hoeng-Seong Factory

Hoeng-Seong Factory, a flour production facility that has laid the foundation for growth since the beginning of Korean wheat. We produce pre-mix wheat products that are supplied to eco-friendly school lunches nationwide.

WOORIMIL Business

Partners

We maintain close relationships with various partners and strive to provide more satisfying products.

PB (Private Brand) Products

Hansalim

Hansalim, Korea's representative cooperative, provides reliable food born and raised in our land based on the value of saving nature and life. Woorimil supplies a variety of products that meet Hansalim's strict quality standards through hygienic production facilities and safe raw materials, and has been a major partner of Hansalim for a long time.

WOORIMIL Product

Woorimil Products

Woorimil Co., Ltd. is a brand committed to eco-friendliness, which means that we prioritize the well-being of the natural ecosystem and utilize domestically sourced raw materials to offer wholesome products.

✔ **Locally Grown and Fresh**

Produce with certified, high-quality local ingredients. Focus on tireless R&D and offering fresh produce to customers.

✔ **Clean Label**

Takes a stance against superfluous food additives, such as synthetic pigments, synthetic fragrances, and preservatives, and instead prioritizes presenting the distinctive flavor of raw materials to customers.

✔ **Green Value**

Strives to reduce carbon emissions through our products, contributing to a more sustainable future.

Avoids plastic packaging and opt for easily recyclable and natural materials instead.

Product Category

Woorimil Co., Ltd. is dedicated to continuously introducing a range of snacks, powders, HMRs, and gift sets with the aim of offering healthier and more delectable food options.

Flour / Powder

Flour / Powder

- Product Name : Korean White Wheat Flour
- Product identification# : 8803385020562
- Weight : 1kg · Quantity/ Box : 1box/10 ea
- Shelf Life : 12 months from the date of manufacture
- Selling Price : 3,700 Won/ea
- Ingredients : Wheat 100%

· Highlights

- 1) Our flour is made from 100% domestically grown wheat, harvested in mid-summer after being sown in late autumn, without any concerns of pesticide or bleaching treatments
- 2) Our flour can be used for a variety of dishes, such as pancakes, noodles, and dumplings, and provides a chewier and more elastic texture compared to regular wheat flour.
- 3) Our flagship product made from our domestically grown wheat has received consistent praise from consumers for being safe to eat, not causing bloating, and providing a satisfyingly chewy texture.

- Product Name : Korean Whole Wheat Flour
- Product identification# : 8803385020579
- Weight : 1kg · Quantity/ Box : 1box/10 ea
- Shelf Life : 12 months from the date of manufacture
- Selling Price : 3,700 Won/ea
- Ingredients : Wheat 100%

· Highlights

- 1) Our product is made from 100% domestically grown whole wheat, milled without any concerns of pesticides or bleaching treatments.
- 2) Our product is made by milling the whole wheat berry, which includes the outer layer of the wheat kernel. This gives our flour a slightly darker color and a rich, nutty flavor.
- 3) Our flour can be used for baking bread, scones, biscuits, and more. It can also be used to make homemade noodles, such as udon or kalguksu, providing a chewy and wholesome texture.

- Product Name : Bread crumbs (Pesticide-free)
- Product identification# : 8803385021019
- Weight : 190g · Quantity/ Box : 1box/20 ea
- Shelf Life : 6 months from the date of manufacture
- Selling Price : 3,800 Won/ea
- Ingredients : Pesticide-free wheat, sugar, brown rice oil, sea salt, yeast

· Highlights

- 1) Our bread crumbs are made from pure domestically grown wheat flour, baked at high temperature (200°C) with no additives.
- 2) They are perfect for adding a crispy texture to a variety of fried dishes, and are a versatile kitchen staple that can be used multiple times.
- 3) These bread crumbs have a large particle size and a rich, distinctive bread flavor that will enhance any dish.

가루류

Gift Set (Price range of 30k ~ 40k Won)

- Product Name : Woorimil Red Ginseng Jelly
- Weight : 900g (45g x 20ea)
- Shelf Life : 12 months from the date of manufacture
- Selling Price : 39,900 Won
- Ingredients : Redbean paste, sugar, Concentrated Red Ginseng Extract, Red Ginseng Powder, etc.

· Highlights

- 1) We've added 1.3% of domestically sourced concentrated red ginseng extract and 0.5% red ginseng powder to bring out the deep flavor of Korean red ginseng.
- 2) Instead of using cheap imported adzuki beans, we've used domestically sourced adzuki beans as the main ingredient and added natural sweetener, fructooligosaccharide, to create a subtle and healthy sweetness.
- 3) 'Yanggang' is a nostalgic snack that brings back old memories and is a great gift for parents or loved ones.

- Product Name : Woorimil 4 season colors noodle set
- Weight : 800g (200g x 4ea)
- Shelf Life : 24 months from the date of manufacture
- Selling Price : 39,900 Won
- Ingredients : *Sweet Pumpkin - Wheat Flour, Refined Salt, Sweet Pumpkin Powder, Canola Oil (Organic) *Mugwort - Wheat Flour, Refined Salt, Mugwort Powder, Canola Oil (Organic) *Hongguk - Wheat Flour, Refined Salt, Red Bean Rice Powder, Canola Oil (Organic) *Korean Wheat - Wheat Flour, Refined Salt, Canola Oil (Organic)

· Highlights

- 1) Our noodle is made by slowly stretching and pulling the dough by hand. It was born from the belief of artisan Kang Hee-tak, who carries on the tradition of Korean noodle, and the insistence on using only Korean wheat.
- 2) Our set of four different types of noodles are all made from locally sourced ingredients such as kabocha squash, mugwort, black beans, and wheat flour, each reflecting the distinct flavors of the four seasons.
